

HEATING & COOLING IN ONE

Our AvidoTherm system is not only suitable for heating a room. You also save on air conditioning.

UNIFORM TEMPERATURE AND PLEASANT CLIMATE

Due to the small pipe spacing, there are almost no temperature waves, as with conventional panel

UNIFORM TEMPERATURE EVEN IN LARGE HALLS AND ROOMS

ALMOST AS FAST AS SWITCHING ON THE LIGHT

The system of AvidoTherm creates a comfortable temperature in a short time - twice or even many times as fast as conventional heating systems.

LOW PURCHASE AND ENERGY COSTS

Compared to the classic heating variants, the system of AvidoTherm is not more expensive thanks to automated production technology, while at the same time you have much lower energy costs.

FEASIBLE ON ANY WALL & ANY FLOOR.

In drywall, in plaster, directly in the concrete layer or on curved surfaces - the system of AvidoTherm is so convertible that it fits in everywhere.

20-YEAR WARRANTY

Many years of good experience have shown that AvidoTherm elements are reliable. This allows us to offer you a 20-year warranty.

AvidoTherm

COOLING AND HEATING
IN ONE SYSTEM

WHAT IS THE AVIDOTHERM FEEL-GOOD CLIMATE?

The system of AvidoTherm is the most modern way to temper a room. Important: We say "tempering" instead of "heating", because we focus on your feel-good temperature. By the way, "tempering" does not only mean warming, but also cooling.

HEATING
AND
COOLING

FOR ENTREPRENEURS, INDUSTRY, COMMERCE:
