

Adhesive Tape Double Sided 701F white, covered with brown silicone paper

Art.-Nr. 029-05-02-1002

- Good bond strength
- Good adhesion
- Coated with adhesive on both sides

Fields of application:

It is a versatile double-sided "tape", it is well suited for laying carpets and fixing and holding various materials.

Underground:

The substrate must be clean, dry and free from substances that impair adhesion.

Processing:

The data given are typical values and do not represent a specification. We recommend that you check the suitability of the suitability of the self-adhesive tape for the intended application.

Product properties

The more asterisks, the more pronounced the respective properties of the product::

Technical Data

Carrier material:	polyester fabric
Adhesive type:	hotmelt
Colour:	white, covered with brown silicone paper
Tear strength:	N 25mm, min 60 N/cm, min 24.1
Thickness:	0.24 mm
Adhesion to steel:	cN/25mm - 2800 N/cm - 11.3
Core diameter:	76 mm
Roll length:	25 m
Roll width:	50 mm
Weight_	approx. 481 g
Delivery form:	Rolls
